

BOTOX® HYPERHIDROSIS FOR UNDERARMS, HANDS AND FEET:

BEFORE YOUR APPOINTMENT

- For underarms, please refrain from wearing antiperspirant 1-2 days before your treatment

THE DAY OF YOUR APPOINTMENT

- The treatment areas will be wiped with a cleanser and alcohol.
- For underarms, please wear loose and comfortable clothing to prevent rubbing and chafing in the treatment area.
- For hands and feet, some patients find it helpful to take a mild analgesic (Tylenol) one hour prior to treatment.
- For underarms, hands and feet: ice, vibration or numbing spray may be applied to the skin to help with any discomfort during the treatment.

AFTER YOUR APPOINTMENT

- Do not apply pressure to/or massage the treatment area.
- Pinpoint bleeding may occur and will resolve quickly.
- Rarely, patients may develop mild bruising and or sensitivity around the injection site .This will resolve within the first week after treatment.
- Any immediate redness or swelling will subside within an hour.

WHAT TO EXPECT

- Your results will appear gradually over the period of 3-10 days.
